

Bulletin No. 2023038

DATE: April 24, 2023
TO: Authorized ANSUL® Restaurant System Distributors and OEMs
FROM: Product Management, Restaurant Systems
SUBJECT: Elimination of CO2 Cartridges for use in Restaurant Systems

As part of our improved delivery initiatives, we are continuing to review all components offered for sale. To assist with production efficiency and reduced lead times we will be discontinuing the offering of CO2 cartridges for use in restaurant systems, effective May 1st, 2023. The impacted part numbers are listed below with the applicable Nitrogen Cartridge replacement.

CO2 cartridges existing in field installations and distributor inventory may still be used until they are no longer able to meet testing and certification requirements.

Table with 4 columns: CO2 Cartridges to be Eliminated (Part Number, Model) and Nitrogen Replacements (Part Numbers, Model). Rows include models 101-10, 101-20, and 101-30 with their respective part numbers and replacement models like LT-20-R, LT-30-R, Double Tank, and LT-A-101-30.

All existing and new orders placed by April 28th 2023 will be fulfilled as product becomes available.
